Bust

Measure from one armpit to the other across your front side

Chest Size

Measure around the widest part of your chest (put the measuring tape on both nipples). Let loose so that you can put a finger between your body and the tape. Make sure that the tape is at an even height all the

Stomach size

Measure around the widest part of your abdomen. Let loose so that you can put a finger between your body and the tape, keeping the tape parallel to the floor.

Waist size

Measure around your waist, in your underwear, at the point where your trousers would normally sit. Keep one finger between the tape and your body. Imagine that the tape measure is the trousers you will be wearing and take the size that you desire.

Jacket Length

Measure from the highest part of your shoulder (A) (next to the shirt collar) to the desired measure (B) normally you should measure to the tip of your thumb (B).

Important : The measuring tape must pass through the center chest.

Hips size

Stand with your heels together, and measure around the fullest part of your hips, keeping the tape parallel to the floor.

Crotch length

Hold the tape at the center back of your waist (A). Run the tape between your legs, pulling comfortably at the crotch, and up to your natural waist in front (B). Both (A) and (B) at the same level where you would wear your pants.

If you have any doubts compare this measure with pants that fit you well.
